

As a senior manager leading the transformation of the Integrated Children's System, how can you validate your plans before remodelling your own local children social work practices?

**Trial CareDirector now from only £2,500 per month** and unlock the potential of your Integrated Children's System with familiar and flexible technology that improves usability for social workers and puts you in control.

- Give social workers the power to make a difference with the CareDirector case management system
- Demonstrate how CareDirector gives social workers more time to spend with children and their families
- Measure the efficiencies achieved during your trial with the CareDirector performance module
- Build an evidence-based business case to move to CareDirector with reduced financial commitment
- No hardware investment required
- Accredited ICS phase 1C by the Department of Schools, Children and Families and Wakefield Council

Here's your opportunity to unlock the potential of your Integrated Children's System. We are offering you a trial of CareDirector for up to six months so your organisation can conduct pilot testing, prototyping and solution development to support your local ICS transformation strategy and inform your business case to switch to CareWorks.

## CareDirector Trial Offer

Typically, you can get to trial CareDirector with up to 20 care workers over a 3 to 6 months period. This trial offer includes:

- Implementing the CareDirector case management system
- Implementing the CareDirector performance module
- Training and access to all training materials
- Full technical and helpdesk support
- Hosted solution – No IT investment is required!

## Why CareDirector and CareWorks?

**CareDirector** is a new case management system that makes it easier for social workers to identify the most relevant information to keep children safe. Designed to make the Integrated Children's System work for you, crucially, it places the child and family at the centre of the process.

CareWorks has taken a different approach, moving away from the custom social care applications that have traditionally been used in Children's Services, to one built on an industry-standard customer service platform. The result is a higher quality, more flexible system that is easier to use and to tailor to support individual local authorities' practices.

**CareWorks** is a social care specialist with 13 years experience, 70 local authority customers and unrivalled understanding of the revolution taking place in the delivery and management of social care. We have extensive knowledge and experience of the requirements and business processes of children's social care. We have developed relationships with key partners to ensure that we have the appropriate business and technical expertise to make the Integrated Children's System work for you. We are proud to be recognised by our customers and partners for our ability to build positive, personal and open working relationships.
